WE DIDN'T  
THINK OF EVERYTHING,

**YOU  
DID.**

Since 1908, Harley-Davidson has stood by law enforcement. It's a commitment that has grown through our support of the National Law Enforcement Memorial Fund, Concerns of Police Survivors, National Fallen Firefighters Foundation and The Motor Officer™ magazine. As the conditions officers face continue to change, we've taken a bold and unprecedented step. This year, we took our motorcycles back to the drawing board. We brought motor officers with us, including our Police Advisory Board. They talked and we listened. The result is the ultimate law enforcement machine. This is authority reborn.

YOU ASKED FOR MORE  
**POWER.**  
SAY HELLO TO THE TOP OF THE FOOD CHAIN.

You feel it immediately – the power coursing through the new 1690cc High Output Twin Cam 103™ engine. This engine is tuned to give officers unrivaled performance for rapid response. Torque has been boosted by 4%. Horsepower by 6.4%. It's a change you'll feel every time you pass another car, or accelerate to highway speeds. A new air intake helps deliver that power smoothly, providing responsive acceleration to meet the demands of first responders. This is a performance machine like no other.

# HANDLING.

WE PERFECTED

BECAUSE POLICE UNDERSTAND  
THE VALUE OF MAINTAINING CONTROL.

You asked for responsiveness and tactical maneuverability. Striking the perfect balance takes precision. We tweaked the steering head by a few tenths of a degree, giving you confident handling at any speed. New, lighter wheels offer superior traction. Deep lean angles combine with a low center of gravity and a finely tuned suspension for control through sharp turns. It's a tight, responsive ride, because confidence is critical in the line of duty.

PERFORMANCE

POLICE NEED TO BE READY FOR ANYTHING.  
SO IT HELPS TO HAVE HIGH PERFORMANCE

# BRAKES.

We've reinvented our brake system to be at the forefront of the industry. Our new Reflex™ Linked Brakes with ABS help riders maintain control by coordinating the anti-lock systems of front and rear wheels to bring you to a smooth stop. This "smart" braking system automatically unlinks the brakes below 25 MPH, allowing optimum rider control at any speed. What's more, this revolutionary ABS system comes standard on all 2014 Road King® and Electra Glide® models.

SAFETY IS ALL ABOUT PREPARATION.  
LET'S SHED SOME

# LIGHT

ON THE ROAD AHEAD.

When we spoke with motor officers, we found enhanced visibility was a top priority. We've answered the call with two new lighting solutions. The Police Road King® model features Dual Halogen lights, giving officers brighter light and a massive 1460 lumen high beam. The 2014 Police Electra Glide® model features our all-new Daymaker™ LED headlight, with a 2X wider viewing area and greater overall brightness at 916 lumens. As an additional benefit, these LEDs also produce a higher quality light (more closely resembling daylight), to reduce eye strain.

HERE'S A REVOLUTIONARY CONCEPT:  
HAND CONTROLS THAT ACTUALLY LEAVE YOU FEELING IN

# CONTROL.

We studied police needs and found perfecting the hand controls just took a little bit of basic math: add more features officers want, then subtract the effort needed to use them. We started with one-touch controls for speed capture, cruise control, push-to-talk, and more. We added digital displays for speed and gear position. Then we tweaked lighting features to give you total control. Front and rear emergency lights can now be controlled independently. "Accessory Power On" lets you run emergency lights and siren with the ignition off. And "Stealth Mode" deactivates all lights (except instruments and brakes) to give you the element of surprise.

# COMFORT

LEADS TO CONFIDENCE.  
GET READY FOR THE MOST CONFIDENT RIDE YET.

It's the first thing you'll notice. The all-new batwing fairing gives the 2014 Police Electra Glide® an entirely different look. It also gives it a whole new feel. The fairing features our new Splitstream vent, which redirects airflow away from the rider for reduced head buffeting and more comfort. You'll also notice storage has improved with new, larger saddlebags that can be accessed quickly with a One-Touch latch. And we've carried over last year's improved seat suspension. It's all built to be intuitive and comfortable.

## 2014 FLHP AND FLHTP

# FIRE RESCUE

### ON-DEMAND PERFORMANCE WHEN MINUTES MATTER.

For fire and rescue responders, the difference a few minutes can make in response time can have a profound impact on the lives of people. When faced with any emergency or rescue situation, you need a motorcycle you can depend upon to get you to where you need to be regardless of the location or the challenge you face. Harley-Davidson® Fire Rescue motorcycles deliver the performance and reliability you need to control any rescue situation quickly, with authority and confidence.

## 2014

# SPECIAL EDITIONS

As a tribute to all law enforcement officers and firefighters who unselfishly give of themselves day in and day out, Harley-Davidson is proud to offer Peace Officer and Firefighter Special Edition motorcycles for off-duty use. Made available only to active or retired law enforcement and fire officials, these specialty models feature distinctive designs and detailing that allows riders to display their civic pride, even when not in uniform.

**HARLEY-DAVIDSON'S  
COMMITMENT TO YOUR  
DEPARTMENT CONTINUES  
LONG AFTER YOUR FLEET  
HAS BEEN DELIVERED.**

# TRAINING

We enhance our motorcycle support program with professional partnerships to provide outstanding operator, instructor and technician training.

## **NORTHWESTERN UNIVERSITY CENTER FOR PUBLIC SAFETY**

For more than 20 years, the Harley-Davidson Motor Company has partnered with Northwestern University Center for Public Safety to make motor officers safer through training. We've built a nationwide program, transporting 21 training motorcycles in a custom trailer to as many as 13 locations each year. We provide the best operator training and instructors in the country, as well as an on-site technician, and a complete inventory of parts, ensuring uninterrupted training. And it's all included in student tuition.

## **TRAINING BROUGHT TO YOU**

Motorcycle operator and instructor courses can be presented at your location, with your agency acting as host. Motorcycles are provided by Harley-Davidson with instruction provided by Northwestern University Center for Public Safety.

## **MOTORCYCLE MECHANIC'S INSTITUTE**

We offer specialized training for technicians and officers who serve law enforcement agencies that use Harley-Davidson® Police motorcycles. Working with our own Harley-Davidson University, we provide a curriculum similar to that offered for dealership technicians. Training is conducted at the Motorcycle Mechanics Institute facilities in Orlando, Florida and Phoenix, Arizona. Five 4-day classes are held at each of the MMI facilities: Vehicle Maintenance, Chassis Set-up/ABS Service, Power Train Service, Engine Management Systems and Electrical Diagnostics.

Visit <http://nucps.northwestern.edu/motorcycles> for current class availability, tuition cost and to register online.

## EMERGENCY EQUIPMENT

### HARLEY-DAVIDSON® POLICE TOUR-PAK® SYSTEM

Designed for ease of installation and service, the Harley-Davidson® Police Tour-Pak® carrier system is a “plug-and-play” option for Touring Police models. The Tour-Pak carrier system plugs into the vehicle wiring harness, eliminating the cutting and splicing required with other light boxes. The Tour-Pak carrier system features an LED brake light with integrated amber turn signals, a single center-mount key lock, dual positive-catch latches, hinged metal stays that keep the lid open and dual adjustable equipment shelves for mounting and storage of custom installed equipment.

The Tour-Pak carrier system is available pre-drilled for the side and rear LED lights (sold separately), or as a “Box only” kit. Pre-drilled versions feature a self-contained auxiliary battery which provides additional reserve capacity and is isolated from the vehicle battery when the ignition is switched off. Pre-drilled versions also include an onboard battery charger with external 110-volt power hook-up, 12-volt accessory outlet, fused terminal block, grounding block, also contains the Run/Brake/Turn Signal Strip Light and wiring harness with watertight connectors. Auxiliary Battery P/N 65989-97C sold separately.

*Fits all FLHP and FLHTP models:*

**54177-10** White, Not Drilled

**54178-10** Black, Not Drilled

**54179-10** White, Pre-Drilled

**54180-10** Black, Pre-Drilled

**53196-09** Tour-Pak® mounting Adaptor Plate, *Required for '09-later models*

**68000137** Tour-Pak® Wiring Harness Adaptor Kit, *Required for '14 models*

### POLICE TOUR-PAK® LED LIGHT KIT

Equip your Police Tour-Pak® carrier system for maximum visibility. These fast-reacting bright LED lamps feature clear lenses and selectable flashing pattern. Sold individually, these lamps are available in your choice of Red, Blue, and split Red/Blue LEDs.

Fits Police Tour-Pak P/N 54180-10 and 54179-10. Also fits Police Tour-Pak P/N 53631-04 and 53632-04 when all LED lights are replaced, and Wiring Harness P/N 70697-10 (1), Trim Ring P/N 72641-10 (3) and Washer P/N 6789 (6) are installed.

**69816-10** Red LED

**69940-10** Blue LED

**69941-10** Red/Blue LED

### POLICE TOUR-PAK LED BRAKE LIGHT WITH INTEGRATED AMBER TURN SIGNALS

Bright, fast-acting LED lamps grab the attention of following drivers. Clear lens lamp features LED lights with run, stop and amber turn signal function.

Stock replacement for Police Tour-Pak P/N 54177-10, 54178-10, 54180-10 and 54179-10 also fits 53631-04, 53632-04, 53634-04 and 53637-04 with separate purchase of Wire Harness Kit P/N 72640-10 if replacing brake light or P/N 70697-10 if replacing brake light and all LED lights.

**69705-10**

### POLICE TOUR-PAK LED LIGHT TRIM RING

Add a touch of chrome to an LED light-equipped Police Tour-Pak® carrier. Chrome-plated trim rings are formed to wrap the lens and conceal the lamp base. Trim rings also permit installation of LED Light P/N 69816-10, 69940-10 and 69941-10 on older-style Police Tour-Pak P/N 53631-04 and 53632-04.

**72641-10** Fits Police Tour-Pak LED Light P/N 69816-10, 69940-10 and 69941-10

### EMERGENCY RESPONSE COMPONENTS

The emergency response kits include the basic accessories necessary to prepare a Police motorcycle for field duty. Kit includes siren speaker, siren amplifier, P.A. microphone, speaker bracket and amplifier bracket. 100-watt amplifier features one-button activation, two siren tones with optional air horn (air horn activation may require additional labor charges by dealership) and PA function. Siren speaker features heavy gauge polished aluminum horn. And the noise canceling PA Microphone permits the use of the siren speaker as a PA system.

### COMPLETE EMERGENCY RESPONSE KIT

**91453-00A** *Fits '13-earlier FL models*

**69000057** *Fits '14 FL models*

### SIREN SPEAKER ONLY

**91157-88A** Speaker Assembly

**91154-87** Siren Speaker Bracket Kit

### SIREN AMPLIFIER ONLY

**91156-93** Siren Amp

**91260-93A** Bracket Kit, *fits '13-earlier models*

**69200597** Bracket Kit, *fits '14 models*

### P.A. MICROPHONE

**91448-00** PA Microphone Kit

### PAR-36 FRONT LED EMERGENCY LAMP KIT

Kits include extended lens LED lamps, 4-point LED flasher module and wiring harness. Flasher module is designed to power front LED Emergency lamps and LED Engine Guard Light Kit (sold separately).

*Fits all FLHP and FLHTP models:*

**69250-04A** Red/Blue LED Lamp Kit

**69262-04A** Red/Red LED Lamp Kit

**69263-04A** Blue/Blue LED Lamp Kit

### POLE STROBE LED LAMP

Telescoping pole-mounted 360-degree strobe beacon. The self-contained LED strobe lamps are available with blue or red 4-1/2" H x 5-1/2" diameter lens. Does not fit with Police Tour-Pak® carrier systems. Separate purchase of model-specific Pole Lamp Mounting Bracket is required.

### BLUE STROBE

**67623-88A** *Fits '13-earlier FL models*

**68000135** *Fits '14 FL models*

### RED STROBE

**67624-88A** *Fits '13-earlier FL models*

**68000136** *Fits '14 FL models*

### POLE LIGHT BRACKET

**91379-09** *Fits '09-'13 models*

**57300036** *Fits '14 models (can be used with or without Police Tour-Pak®)*

### EMERGENCY HEADLAMP WITH BUILT-IN STROBE

Make your motorcycle visible to oncoming traffic. Kit includes headlamp and strobe bulbs, headlamp housing, 2-point strobe power supply, and required installation hardware. Restricted part – requires written authorization from requesting agency.

**90050-02A** *Fits '99-'13 FLHP and FLHTP models*

**67700222** *Fits '14 FLHP and FLHTP models*

### STEALTH SWITCH

Disables all lights except front fender tip light and brake light. LED light on switch notifies Officer when switch is activated.

Stealth Switch will not work with the Harley-Davidson® Integrated Radar Kit (restricted part – requires written authorization from requesting agency).

*Fits '07-'13 models:*

**91474-07A** Left-Side Handlebar Mounting

**91459-07A** Right-Side Handlebar Mounting

### HEADLIGHT ON/OFF SWITCH (Not pictured)

*Fits '06-earlier FLHP and FLHTP models (restricted part – requires written authorization from requesting agency).*

**91270-92**

### MIRRORS WITH FLASHING LED POLICE EMERGENCY LAMPS

Smoked lenses hide bands of red or blue LED lamps that work as fast-acting auxiliary flashing emergency lights when emergency lamps are activated. The forward-facing eye-level lamps command additional attention from oncoming traffic. The wiring is concealed in the housing and stem, and is easily connected to the Original Equipment Incandescent Front Emergency Lights with no additional parts, or can be plug-and-play integrated with the PAR-36 Front LED Emergency Lamps or the Engine Guard LED Lamps using Wiring Interface Module P/N 69200206.

Fits '97-'13 Police vehicles with Original Equipment Emergency Lamps or XL Police models with Emergency Lamp Kit P/N 68746-03B. Installation on models equipped with Harley-Davidson® PAR-36 Front LED Emergency Lamp Kit or Engine Guard LED Light Kit require separate purchase of Wiring Interface Module P/N 69200206.

**56000001** Red/Blue

**56000019** Red/Red

**56000020** Blue/Blue

### ENGINE GUARD LED LIGHT KIT

The lamps clamp to 1-1/4" diameter tubular engine guards, and are adjustable for left-right and up-down positioning. Kits include 2 LED lamps, your choice of color (listed below) and installation hardware. These are powered by any PAR-36 Emergency Lamp Kit sold above. An LED Flasher Module (P/N 70671-04) and Wiring Harness (P/N 70673-04) are required if installing without a PAR-36 Emergency Lamp Kit. Lenses feature Bar & Shield logo lens covers.

*Fits all FLHP and FLHTP models:*

**69251-04** Red/Blue Engine Guard LED Light Kit

**69264-04** Red/Red Engine Guard LED Light Kit

**69265-04** Blue/Blue Engine Guard LED Light Kit

**70671-04** 4-Point LED Flasher Module

**70673-04** Wiring Harness

### POLICE SEAT SUSPENSION KIT

Retrofits '09-'12 FL models with one-piece solo coil-over shock absorber seat suspension (replacing the air bladder).

**91800040**

## ACCESSORIES

### NEW VENTILATOR WINDSHIELD

If you ride in a warm climate, or spend time at low speeds stuck in traffic, you need to keep some air circulating around your body to stay comfortable. Ventilator Windshields feature clear injection-molded vents that allow you to adjust the air flow to match the riding conditions. Opening the vents redirects the air across your chest for a cooling effect, and closing the vents provides maximum wind and weather protection.

**57400024** 21" Clear

### DETACHABLE COMPACT WINDSHIELD

Whether it's for keeping bugs off your face or warmth in your body, a windshield has a huge impact on a rider. By diverting air pressure past your chest and over your helmet, a windshield can add hours of riding comfort (requires separate purchase of Docking Hardware Kit P/N 58164-96A and Turn Signal Relocation Kit P/N 68603-01).

**57400053** Fits '11-later XL883L Police models equipped with Emergency Lamps

### REPLACEMENT WINDSCREENS

Match your windshield height to your riding preference. Replacement clear polycarbonate screens are available in tall and low-profile shapes that maximize your view and weather protection.

Fits '94-later Road King® models:

**57768-00** 16" Low Profile

**58433-96** 22" Tall Profile\*

Fits '96-'13 Electra Glide® models:

**57185-05** 7" Deflector (smoked)

**58301-96** 10" Low Profile

**58187-96** 12" Mid Profile\*

**58314-97** 15" Tall Profile

Fits '14 Electra Glide models:

**57400229** 7" Deflector (smoked)

**57400225** 10" Low Profile

**57400228** 12" Mid Profile\*

**57400224** 15" Tall Profile

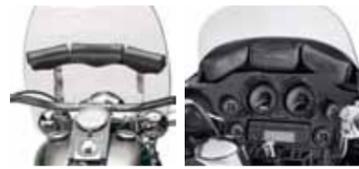

\*Original Equipment police

### PROTECTIVE SOFT LOWERS

Install on Engine Guard for protection against the elements. Easy installation and removal. Should not be used when air temperature is above 50 degrees.

**57100210** Fits '80-later FLHP and FLHTP models equipped with Engine Guards (does not fit with Siren Speaker or Engine Guard Light Kits)

### MULTI-POCKET WINDSHIELD POUCH

Add convenient storage space with easily accessible pouches mounted inside the windshield. Hook-and-loop closures provide grab-and-go access to pens, glasses and other small items you need every day.

**58904-03** Fits all Road King® models

**58900-11** Fits '96-'13 Electra Glide® models

**93300054** Fits '14 Electra Glide® models

### SADDLEBAG GUARD BAG AND WATER BOTTLE HOLDER

Storage section features a convenient hook-and-loop outer closure and a zippered inner closure to provide easy access to the small items you need for a day on patrol. Sling pouch holds a tight-fitting removable water bottle. Will not fit with saddlebag guard rail-mounted equipment. Left sides will not fit with siren amplifier installed.

Fits '13-earlier FLHP and FLHTP models:

**91991-98** Left Side

**91992-98** Right Side

Fits '14 FLHP and FLHTP models:

**93300061** Left Side

**91992-98** Right Side

### AUXILIARY POWER PORT

Saddlebag-mounted 12-volt power port accepts most 12-volt automotive power adaptor plugs. Kit includes power port, mounting bracket, wiring harness and all mounting hardware (requires separate purchase of Harness P/N 94624-97B)

Fits all models:

**69200091** Saddlebag Mount – fits all models (requires separate purchase of Harness P/N 94624-97B)

### SPORTSTER

### FRONT EMERGENCY LAMP KIT

Kit includes 1 red and 1 blue incandescent emergency lamp, housings, mounting brackets, switches and wiring harness.

**68746-03B** Fits '88-later XL Police models

**41000203** Fits '14 XL Police models

### JIFFY STAND EXTENSION KIT

The extension is shaped to simplify locating the tab with your boot and aid in swinging the jiffy stand into position. The move feels natural, and adds confidence when parking your motorcycle in a tight spot. Kit mounts to Original Equipment jiffy stand.

**50000023** Fits '91-later FLHP and FLHTP models

### SHORT-STEM "TRUE IMAGE" MIRRORS

(not pictured)

These mirrors are designed to eliminate the mirror geometry that makes following objects appear further away than they really are. You get a true picture of your surroundings in tight situations.

Fits all models:

**91875-02A** Right

**91892-02A** Left

### 1.25 AMP BATTERY CHARGING STATION

Harley-Davidson® Battery Charger Stations are designed to fully charge lead-acid motorcycle batteries and maintain them at proper voltage. The 4-Step Supersmart Charging Process (Initialization, Bulk, Absorption, Float) helps to prevent sulfation and reduces the effects of overcharging. Status indicator lights allow you to monitor the charging state of each connected battery. The Charging Station accepts worldwide voltage 100 to 240 VAC @ 50 to 60 Hz. Maximum charge rate of 1.25 Amperes. The charger is spark-proof and reverse polarity protected, and features short-circuit protection to prevent damage from incorrect terminal connections. Kit includes quick-disconnect 7.5 Amp fused Battery Charging Harness with ring terminals and 7.5 Amp fused alligator clip charging harness for each battery output. 2-year manufacturer's warranty.

For 12-volt batteries:

**99863-01B** Single Station

**99829-09** 2-Bank Station

**99847-09** 4-Bank Station

## ENGINE REMANUFACTURING

Keep your fleet on the road longer. When the miles start to add up, the Harley-Davidson Engine Remanufacturing Program can put the rumble back into your power plant simply, quickly and affordably. Unlike the repair shop down the street, this isn't a side job for us – our technicians live it every day, and work with the precision tools and equipment required to restore your engine to factory-fresh condition.

For more information, visit: [www.h-d.com/reman](http://www.h-d.com/reman)

No matter what your fleet's model mix, we can make your 1340cc Evolution,® Twin Cam 88,® 95, 96, or 103 equipped engine run like new again – with a fresh 12-month unlimited mileage warranty.

Fast and easy:

Working with your authorized Harley-Davidson® dealership, they will remove the engine and send it in a specialized container to be remanufactured to factory specifications by our team of trained technicians.

Factory turn-around time:

Just two weeks.

Better than ever:

1999-2006 Twin Cam engines will now be upgraded with a factory-installed Screamin' Eagle® Hydraulic Cam Chain Tensioner Plate and Oil Pump Kit.

<sup>1</sup> Vehicles depicted may differ from vehicles manufactured and delivered. Specifications and prices listed may differ from specifications and prices of vehicles manufactured and delivered. All product descriptions (including depictions, specifications, dimensions, measurements, ratings and competitive comparisons) are based on available information at the time of publication. Although such descriptions are believed correct, errors and changes can occur and complete accuracy cannot be guaranteed. Harley-Davidson may make changes at any time to prices and specifications, and may change or discontinue models, without notice and without incurring any obligation. Attention: Vehicles in the configurations shown and many of the accessories described in this catalog may not be available for sale or use in some locations. Please check with your dealer for complete product details and the latest information. All models feature 6-speed transmission (V-Rod<sup>®</sup> models and Sportster<sup>®</sup> models are 5-speed) and carbon fiber belt final drive; multi-plate clutch with diaphragm spring in oil bath; and 2-year unlimited mileage warranty.  
<sup>2</sup> Measurement reflects 180 lb. (81.7 kg) operator weight.  
<sup>3</sup> Recommended 91 octane or higher fuel (R+M)/2.

<sup>4</sup> Standard and optional wheels may vary by country and region.  
<sup>5</sup> Values shown are nominal. Performance may vary by country and region.  
<sup>6</sup> The combined fuel economy numbers were derived using a combination of estimated city and highway values. Fuel economy estimates are derived from US EPA exhaust emission certification data on a sample motorcycle from the corresponding family under ideal laboratory conditions. Your actual fuel economy will vary depending on your personal riding habits, road and driving conditions, vehicle condition and maintenance, tire pressure, vehicle configuration (parts and accessories), and vehicle loading (cargo, rider and passenger weight). Break-in mileage may vary.  
<sup>7</sup> North America security system includes immobilizer; outside North America the security system includes immobilizer and siren.  
<sup>8</sup> See motorcycle Owner's Manual for complete details.  
<sup>9</sup> Inspections of certain systems and components are required at 2,500 mile (4,000 km) intervals. See Owner's Manual for full details.
